

Solana at Ridgefield

Ridgefield, CT

Owner:	Formation Development	Contractor:	Generation Drywall
Architect:	PRDG	Structural Engineer:	Integrity Structural
Type:	Load Bearing Wall Panels	Completion Date:	Spring 2019

Atlantic Prefab Engineered and fabricated LGMF load bearing wall panels for this assisted living facility. In addition to our wall panels, we also included LGMF columns and headers, as well as installing mineral wool at the closed framed cavities. API also pre-installed HSS Tube Steel on wall panels that encountered vertical distribution loads. Job is three stories totaling over 100,000 SF.
