

UNE Lighthouse

Biddeford, ME

| | | | |
|------------|---------------------------|----------------------|----------------|
| Owner: | University of New England | Contractor: | Dirigo Drywall |
| Architect: | Shepley Bulfinch | Structural Engineer: | DM Berge |
| Type: | CFS Truss | Completion Date: | October 2017 |

Atlantic Prefab fabricated CFS trusses for this lighthouse roof at the University of New England. The desired result was achieved by fabricating two modular truss halves that were delivered to the site, ready to be hoisted by using predetermined hoisting locations and hardware for the trusses that API engineered.

Constructing Solutions.... Delivering Success.
