

Fairfield Inn & Suites

South Kingston, RI

Owner:	The Marriott Group	Contractor:	Baystate Drywall
Architect:	The Renaissance Group	Structural Engineer:	Davis Patrikios Criswell
Type:	CFS Roof Trusses	Completion Date:	Winter 2018

Atlantic Prefab designed, fabricated and delivered CFS Roof trusses for this new hotel project in RI. API's scope involved the high and low roof areas as well as the parapet area, and needed to be engineered to accommodate the additional framing that was located at the outside face of the exterior walls.
